In the years that brought us into this world, we were introduced to and eventually began to climb the ladder of the Educational World. Time has progressed, students have entered these grounds and graduated from them. In this school year of 1971-72, we on the BRONC '72 staff have dedicated this book for memory of this year, to record the beginning, the struggle through, and the close of it, and to see the growth of the students at L. H. S.

GIRL'S BASKETBALL

Mrs. Meyers, girl's coach, gives hurried instructions to players during time out.

In past years the girl's basketball team of Lakin High School were unsuccessful in gaining victory over their skilled opponents. During this last season their roles have changed, Lakin girls becoming the victors. One reason may have been the change to boy's 5-man team playing, another may be their coach, Mrs. Meyers. From LHS we extend our congratulations to the team and thanks to the coach for her excellent coaching abilities.

FACULTY

Hopefully, the 1971-1972 school year was one that holds many precious memories for everyone. If we are realistic, however, we know that there were achievements and disappointments in the school life of all of us. Unfortunately, we tend to remember the negative longer than the positive, and the impression is much more vivid. To succeed in some way in some thing is the good of us all, and in looking at the overall school record this past year, it is easy to see that many of you succeeded in many different endeavors.

For the most part, I have enjoyed this past year more than any other year since I entered the teaching arena, and for this I owe the student body much credit All of you, with minor exceptions, have been a credit to your parents and most of all to yourselves. With the prevailing philosophy that most of you have, your problems will be minimal and surmountable, which is a further tribute to your character. May the coming years be as fruitful for all of you as was the 1971-1972 school year.

Daryl Olson, L.S.H.'s principal, is an important man. It takes alot of work to make a school go round, he's the one that keeps things going.
